### RELEASE FOR TEMPORARY POWER

TO: The Morganton Building Inspections Department

BE IT KNOWN to all men THAT I, \_\_\_\_\_  
General Contractor {  Owner/ General Contractor or  N.C. Licensed General Contractor of record } and "Responsible Agent" for the job as described above, do hereby apply for "Temporary Power" as provided for in Section 10.8.6 of the North Carolina Building Code (Volume IV).

THAT I, \_\_\_\_\_ have read, completely understand, and agree with all of the terms and provisions, and requirements contained in section 10.8 of Volume IV of the North Carolina State Building Code below:

THAT the "Temporary Power" will be in name and will be used only as provided in Section 10.8 of Volume IV.

THAT only the portions of the electrical system as listed below will be energized:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

THAT the intended use(s) of the "Temporary Power" is only as follows:

\_\_\_\_\_  
\_\_\_\_\_

THAT the duration will be for \_\_\_\_\_ days only.

THAT WRITTEN permission has been received below from the electrical Contractor of record stating those portions and suitability of the electrical system to be energized.

THAT WRITTEN permission has been received below from the Plumbing and Mechanical Contractors of record for permission to energize their equipment only as listed below:

**Electrical Contractor's Signature**

---

**Plumbing Contractor's Signature**

---

**Mechanical Contractor's Signature**

---

THAT I, \_\_\_\_\_ completely understand that this structure may NOT be occupied, or have furniture, or personal property, etc. stored within, except as specifically approved in writing by the Morganton Building Inspections Department, during this temporary power duration.

THAT I, \_\_\_\_\_ completely understand that the required Certificate of Compliance and Certificate of Occupancy are required to be completed by the Morganton Building Inspections Department prior to occupancy. ( R-112.1.8 & 112.1.9 Vol. VII or 3.8.8 and 3.9 Volume 1-A as they apply) GS 153A-353, 160A-423.

---

## "10.8 TEMPORARY POWER

10.8.1 Scope: The Provisions of this Section apply to the utilization of the permanent wiring system within a building to facilitate construction

10.8.2 Definition: Responsible Agent - for the purpose of this Section, the responsible Agent shall be the entity(s) who, in fulfillment of contractual obligation or otherwise, is empowered to control and supervise all construction activities. The suitability of the responsible agent shall be at the sole discretion of the authority having jurisdiction.

10.8.3 Other Articles: except as modified in this Section, all other Articles of this Code shall apply.

10.8.4 Uses Permitted: Utilization of portions of the permanent wiring system to facilitate construction shall be permitted and limited to those instances in which the use of same is deemed to be of reasonable necessity. Reasonable necessity shall include any of the following:

- (1) The utilization of permanently installed HVAC equipment to maintain environmental conditions necessary to facilitate the installation of environmentally sensitive materials, or finishes in accordance with the manufacturer's instructions.

- (2) Where the distance between the construction site electrical service and any interior point at floor level is in excess of 200 feet following the most direct route that an extension cord could reasonably be routed.
- (3) Other situations as allowed by special permission.

10.8.5 Uses Prohibited: Utilization of portions of the permanent wiring systems during construction for any purpose other than testing and verification shall not be permitted where such use is solely for convenience. In no case shall any portions of the permanent wiring be energized for construction purposes until such portions have been inspected and released by the appropriate electrical inspector.

10.8.6 Application for Power: Application for power shall be made by and in the name of the responsible agent. The application shall explicitly state the portions of the electrical system for which the application is made, its intended use and duration. The applicant shall receive written permission from the electrical contractor stating the portions and suitability of these portions of the electrical system to be energized. The applicant shall also receive written permission from the mechanical and/or plumbing contractor if their respective systems are to be operated, stating which systems and the suitability of such systems to be operated.

10.8.7 Ground Fault Circuit Interruption Protection: All 125-volt single-phase branch circuits authorized for use shall have ground-fault interrupter protection for personnel from its point of origin.

EXCEPTION: Branch circuits used exclusively for lighting and routed in metallic raceways or otherwise protected by location so as to exclude the potential for mechanical damage.

10.8.8 Security and Notification: The responsible agent shall maintain the energized electrical system or that portion of the building containing the system in a secured and locked manner or under constant supervision to exclude unauthorized personnel. The responsible agent shall assume the responsibility to alert personnel working in the vicinity of the energized electrical system to its presence.

10.8.9 Inspections: Adequate inspections as deemed necessary by the authority having jurisdiction shall be made prior to energizing to assure that such usage complies with the requirements of this Section.

10.8.10 Consent of Responsible Agent: The responsible agent shall consent to all provisions of this Section. Additionally, consent shall be extended to remove or allow to be removed all power supplied to a building or structure under these provisions when in the sole discretion of the authority having jurisdiction, such service is no longer consistent with the provisions of this section. Such consent shall be in writing as prescribed by the authority having jurisdiction.

10.8.11. Unauthorized Energizing: Unauthorized energizing or use of the permanent wiring system or any portion thereof shall be prima facia evidence of hazard which at the sole discretion of the authority having jurisdiction may result in disconnection of power, revocation of permit, and/or refusal to consider future requests for temporary power as prescribed in this Section."

THAT I, \_\_\_\_\_ further agree that the Morganton Building Inspections Department has the authority as granted in R-112.2 of Volume VII, 10.8.11 above, and GS 143-143.2 and GS 160A-423 to cause the "TEMPORARY POWER" to be discontinued for violation of the provisions of the North Carolina State Building Code.

SIGNED BY: \_\_\_\_\_  
RESPONSIBLE AGENT  
(NOTE: Electrical Power required in same name)
